Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

1. This action is in response to applicant's amendment received on 09/12/07.

Claim Rejections - 35 USC § 103

2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

3. Claims 1-3, 5-7 and 19-29 are rejected under 35 U.S.C. 103(a) as being unpatentable over Rutherford (5,505,551) in view of Horniak et al. (5,833,104).

Rutherford discloses (Fig. 1-15) the invention substantially as claimed including a strip media 10 having a pieces of media (see Fig. 4B), a surface (see Fig. 1), a first side (see Fig. 1, a left tear side of an individual item 14), a second side (see Fig. 1, a right tear side of an individual item 14), a center portion (see Fig. 1, a center tear portion of an individual item 14), a tear bar 38C-D, a first side portion 94 having a tapered surface (see Fig. 14, a right side portion of a high point 94) adapted to abut the surface of the pieces of media, , a second side portion surface (see Fig. 14, a left side portion of a high point 94), wherein the tear bar is fixed; and a center portion 69 (see col. 7, lines 16-18, where the lower point 69 tears the perforated sheet at the center portion). Rutherford doesn't show a roughened surface. However, Horniak et al. teaches the use of a roughened surface for the purpose of providing frictional surface for engaging the ticket. It

would have been obvious to one having ordinary skill in the art at the time the invention was made to have modified the side portions and center portion of Rutherford by providing the roughened surface as taught by Horniak et al. in order to obtain a device that provides more friction to surface of the strip for helping to tear the strip.

Response to Arguments

4. Applicant's arguments with respect to claims have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

5. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
